About Me

To secure a challenging position as a programmer where my exceptional programming skills, proficiency in various programming languages and frameworks, and passion for solving complex problems can contribute to the growth and success of the organization. To leverage my technical expertise and problem-solving skills as a software engineer, contributing to the development of innovative software solutions that drive efficiency, enhance user experiences, and push the boundaries of technology in a dynamic and collaborative work environment.

Experience

Ilsa Interactive March, 2023 - Current
Associate Backend Engineer

As an Associate Backend Engineer at Ilsa Interactive since March 2023, I am an integral part of the software development team, responsible for designing, developing, and maintaining the backend infrastructure powering cutting-edge applications and services. I collaborate closely with cross-functional teams to ensure seamless data flow and efficient communication between frontend and backend systems.

Education

2023
University Of Lahore

BS(CS)
CGPA: 3.7

In this program, I acquired a strong foundation in computer science principles, programming languages, algorithms, data structures, and software development methodologies.

2019
